There is a section for you to input your target grade and to keep track of how you are performing in tests throughout this year. This will help to show you the areas you may need to put some extra study time in.

Below there is a Maths example and Biology example, so you can see exactly how to complete the planner. Plus there are 6 blank planners for you to complete for each subject you are studying.

Completing this Personalised Points Planner will help you create your Study Planner for the year.
